

Case Study

A Coaching Academy Simplifies Tests & Learning Management

Client Overview

A local educational academy serving students from nearby areas, offering multiple subjects and classes, supported by a small to medium-sized faculty team.

Challenges

- Multiple separate systems for tests and study material
- Hard to maintain accurate student/faculty data
- Manual performance tracking
- Legacy data scattered and outdated

Solution

- Faculty-led test creation & scheduling
- Integrated question banks & study material
- Secure digital record management
- Easy legacy data migration & analytics

Benefits

- All-in-one platform for learning & assessments
- Accurate, fast performance reporting
- Actionable insights for better teaching.
- No need for multiple apps
